

AI-and-Society-Syllabus

AI and Society: Course Syllabus

Course Information

Course Title: AI and Society

Semester: Spring 2026

Credit Hours: 3

Format: Hybrid/HyFlex (online and in-person options)

Course Description

This course explores the multifaceted relationships between artificial intelligence and contemporary society. Students examine AI's applications, limitations, and implications across ethics, policy, economics, employment, and social justice.

Key Topics

- Fundamentals of AI and machine learning
- Bias and fairness in AI systems
- Privacy, surveillance, and data ethics
- AI policy and governance
- Employment and economic impacts
- Autonomous systems and accountability

Learning Objectives

By the end of this course, students will be able to:

1. Explain foundational concepts in AI and machine learning
2. Identify ethical issues and biases in AI systems
3. Analyze policy implications of AI technology
4. Evaluate the societal impacts of AI deployment
5. Articulate informed perspectives on AI governance

Course Materials

All required readings are available on this site. Some recommended resources link to external sites.

- **Web-based readings:** Available on this site
- **Downloadable formats:** PDF and Word versions available
- **D2L Integration:** Links to all materials in Brightspace

Grading

Component	Percentage
Participation	20%
Reading Reflections	30%
Midterm Assignment	25%
Final Project	25%

Accessibility

This course is designed according to Universal Design for Learning (UDL) principles. All materials are available in multiple formats to meet diverse learning needs:

- Web pages with accessible formatting
- PDF documents with proper tagging
- Word documents with semantic structure
- Captions on video content
- Alternative text for images

If you require specific accommodations, please contact the Disability Services office or your instructor.

Course Policies

Participation

Participation includes: - Attendance and engagement in discussions - Contribution to online forums - Active reading and reflection

Late Work

Late submissions will be accepted up to 3 days after the deadline with a 10% grade reduction.

Academic Integrity

All work must be original. Proper citation is required for all sources using standard citation format.

Classroom Respect

This course addresses potentially sensitive topics. Respect for diverse perspectives is required.
